

Music Tuition Application Form

FEES

For the academic year 2023–2024 the fee for an individual instrumental lesson is £130 a term, which equates to £43.33 per month, for 9 months. Payment must be made via Scopay. You can set up alerts in Scopay as a reminder to pay. Please note that our music lesson policy is that students receive access to music tuition, rather than pay for individual lessons, and we will provide a minimum of 30 lessons over the academic year. As much as we forward plan to try to avoid students missing peripatetic lessons due to school events etc. it is not always avoidable. Students are asked to try to rearrange a music lesson in advance if they know they are going to be unable to attend due to an exam, trip, or dentist appointment for example. Any lesson missed by students cannot be reimbursed.

TIMETABLE

Lessons take place during the school day. Lessons times are rotated to avoid a student missing the same subject lesson every week and will be displayed on the music notice board and are available to download from SharePoint at the start of each half term. Lessons last for 20 mins and are taught by experienced and qualified teachers.
